ALLIES CLING TO POHANG; REDS SUFFER BIG LOSSES

Warnings Raised As Hurricane Hits Toward Louisiana

NEW ORLEANS, Aug. 30 (AP)—The gulf hurricane, grown in intensity, blew toward Louisiana today and Weather Bureau officials hurried to raise hurricane warnings from New Orleans and Grand Isle, La., to Panama City, Fla.

The hurricane, after sitting nearly still in the Gulf for almost two days, jumped forward overnight and early this morning was 250 miles south of Mobile, Ala., moving in a north or north-northwesterly direction.

W. R. Stevens, chief forecaster for the New Orleans bureau, said that "this is now a big hurricane and will probably strike the mainland around Burwood or Grand Isle."

Burwood is a tiny settlement in the southwest pass at the mouth of the Mississippi River about 50 airline miles south of New Orleans.

Grand Isle is a lush beach resort about 50 miles south southwest of New Orleans. It is connected with the mainland only by a low-lying causeway.

Mr. Stevens said that normally the Weather Bureau tries to get

hurricane warnings at least 24 hours in advance, "but this time we may be a little shy of time."

He said that if the hurricane follows the course he expects New Orleans probably will not feel its full fury, but the Mississippi Gulf coast will take a lashing similar to the one it experienced Sept. 19, 1947, when 21 persons were killed and damage ran into the millions.

More than 500 military aircraft based on the Gulf coast already have been moved inland.

Well in front of the hurricane are squalls on the coast and thundershowers inland.

At the same time, another hurricane, in the Atlantic east of Bermuda, appears veering farther out to sea.

Compromise Clears Way For Controls

Would Allow Truman
To Guard Prices If
Wage Action Follows

WASHINGTON, Aug. 30 (AP)

—The major obstacle to swift action on anti-inflation legislation is out of the way today with a Senate-House committee agreement on the amount of discretion to give President Truman in imposing price-wage controls.

A compromise reached late last night between separate bills passed by the Senate and House would allow Mr. Truman to put price controls into effect about as he sees fit—either on individual items or on almost everything.

But if he imposes price ceilings on any particular material, he also will have to clamp wage controls on the business or industry producing it.

With the dispute over this part of the legislation settled, Senator Maybank (D) of South Carolina, conference committee chairman, predicted that remaining minor differences will be ironed out quickly.

The committee was called back today to do this, Mr. Maybank said he hopes the revised legislation will be accepted by both branches of Congress and be on its way to the president no later than Friday.

Once the measure is passed, Mr. Truman is planning to tell the people in a fireside chat what sacrifices they may have to make on the home front because of the Korean war.

Although this is expected to be the major theme of his report to the nation, a White House official said that the President also will talk about military matters and the nation's foreign policy objectives.

The compromise over wage-price controls was described by Mr. Maybank as "workable" and by Senator Capehart (R) of Indiana as "a blank check" for the President.

The bill passed by the House, like the compromise, would let Mr. Truman put the controls into effect on a selective basis. Unlike the compromise, it did not direct that wage controls be applied at the same time.

Although Mr. Capehart said the fight against selective controls has been lost, other senators could revive it when the compromise bill goes to the Senate for final action.

Mr. Maybank, however, told reporters he thinks the compromise ended the dispute.

Boarder, 27, Held For Slaying Of 5 In Rhode Island

EAST GREENWICH, R. I., Aug. 30 (AP)—A young lodger held as the slayer of a family of five started the night of slaughter and fire after a quarrel in which he said he was the father of the wife's expected baby, police said today.

Fred J. Dusza, 39, his wife, Beatrice, 31, and their three children were found in the ruins of their burned house on the edge of town early yesterday.

Police Chief Charles R. Johnson said that Edwin H. Reynolds, a 27-year-old boarder at first thought to have been a sixth victim, told him he fought with Mr. Dusza Monday night after an argument in which Mr. Reynolds said the expected baby was his.

Only five bodies were found and autopsies showed that four of the victims were strangled.

Mr. Reynolds was captured late last night by troopers who surprised him in the home of his estranged wife, where he was alone.

U.S. Hints Drive To Toss Out Red Regime In North

WASHINGTON, Aug. 30 (AP) — The question of whether the United States intends to carry the war on into Communist North Korea developed a new and interesting facet today.

From an American agency, the psychological warfare branch of the Far East command, came a broad hint to the citizens of North Korea that their Communist rulers will be ousted and the 38th Parallel dividing line erased.

The suggestion is conveyed in an air raid warning leaflet being dropped in North Korea. It advises civilians to move away from the cities which have been converted into military targets by "your Communist leaders."

And it tells them they should join others who have left the cities so that "you can help build a strong, free Korea after the Communists have been driven out."

Conceding that this is a psychological maneuver, it still is noteworthy that a United States agency has suggested to a Russian satellite that its Communist government will be tossed out.

New Enemy Drive Also Perils Taegu

Whole Korean Front
Comes To Life; Foes
Stopped At 2 Points

TOKYO, Thursday, Aug. 31

(AP)—Red Koreans stormed at the wrecked gates of Pohang Wednesday night, but Allied troops clung to that eastern anchor of the Korean war front.

The Reds paid greatly in dead men for a few yards of ground. Both sides counter-attacked at once.

The death struggle for the No. 2 South Korean port on the Sea of Japan coast committed about 20,000 men to the side.

Another 20,000 Reds rolled down from the mountains on Taegu from 18 miles to the north of the central front city.

More Communists—possibly up to three divisions—rushed to join the battle.

By order of North Korean Premier Kim Il Sung the Reds have until midnight to wipe out United Nations forces by the end of August. They are far behind schedule.

Allied arms triumphed over the North Koreans in two smaller, but furious battles.

U. S. Negro and South Korean troops threw the North Koreans off bloody Battle Mountain near Haman, 10 miles northwest of Masan on the southern coast.

American First Cavalrymen stormed up the highest hill near Waegwan in an attack that jumped off Wednesday night.

It was the eighth time in two weeks Battle Mountain changed hands. It was swapped twice Wednesday.

The Waegwan attack was the first by the American cavalymen in days.

The whole Korean front, which winds 120 miles through the mountains westward from Pohang to Waegwan and then southward to the coast, seems to have come to life.

Red probers tried to cross the Nakdong River between Waegwan and Battle Mountain. They were knocked back by U. S. artillery and riflemen of the U. S. 24th Infantry and First Cavalry divisions.

They have 110,000 to 120,000 men on the line. Another 30,000, mostly raw recruits, may join this force soon.

A token force of 1,500 British troops who arrived Tuesday has not yet gone into battle.

More United Nations troops are being rushed to back up American and South Koreans who have carried the brunt of the fighting.

The roaring, close-quarter battle for Pohang seems to be the main Communist effort.

But the ominous threat to Taegu from the north is alarming.

A break-through at either point could turn the Communists loose on Taegu or Pusan.

Allied bombers and war vessels pounded at Communists supplies wherever they could find them. So severe have been the air attacks that a headquarters spokesman said the three new Red divisions expected at the battleline are ill equipped.

The Air Force reported 28 tanks, 87 trucks and many military buildings destroyed or damaged in fresh raids.

36 Take Draft Tests

But 4 Fail To Show Up

Thirty-six Columbiana county men took pre-induction physical examinations Tuesday in Canton, it was announced by J. Homer Browne, chairman of Draft Board 16.

Four of the contingent of 40—the last of 143 called for August physicals—failed to report and will be certified as delinquent following an investigation.

The county will furnish 195 men for physicals in September. The schedule calls for 80 on Sept. 5, 65 Sept. 13 and 70 Sept. 21.

No results of the Aug. 22 examination have been received, Mr. Browne said.

Truman Prods Congress For Tax Increase

Talks With Leaders;
Compromise Looms
On Excess Profits

WASHINGTON, Aug. 30 (AP)

—President Truman prodded Congress today for quick action on a bill to increase taxes by five billion dollars.

He called acting Senate Democratic Leader Myers of Pennsylvania and House Democratic Leader McCormack of Massachusetts to the White House to urge speed on the measure.

Secretary of the Treasury Snyder, who sat in on the conference, emphasized the terrific job facing the treasury if the increases are to become effective Oct. 1.

"The President emphasized to us the importance of speed in order to assure that the treasury can go forward with the new collections on the scheduled date," Mr. Myers said.

Mr. Myers said that what with the amendments to be debated he doesn't think the bill can pass the Senate before Tuesday.

Meanwhile, there was talk of compromise on the bitterly-contested excess profits tax amendment.

House Places Sharp Curbs On U.S. Reds

Bill Passes 354-20;
Senate Approval Of
Plan Due Next Week

WASHINGTON, Aug. 30 (AP)

—With overwhelming House approval, a bill designed to put the spotlight on activities of Communists and their "fronts" moved today to the Senate amid prospects it will be passed next week.

The House passed the measure, 354 to 20, late yesterday after several hours of debate.

Should the Senate version of what to do about Communists differ from that of the House—as is likely—the differences will be ironed out by negotiations from the two chambers.

The House-passed bill includes major features of the old Mundt-Nixon measure, plus some new ones drawn up by the un-American activities committee.

A new feature makes it a crime for a Communist or a member of a Communist-front organization to hold a job in the government or in a defense plant.

Most of those who spoke against the bill in the House argued that it provides guilt by association and thought control.

Many supporters replied that they do not believe the bill goes far enough in dealing with Communists.

Only two Republicans—Representatives Javits of New York and Burdick of North Dakota—voted against final passage.

The bill would require the registration of the Communist party, along with its full membership, and the resignation of organizations designated as "fronts," along with their officers and financial dealings. The "fronts" would not be required to list their membership.

In addition, Communists and members of "fronts" would not be eligible for passports and would have to put a label on their propaganda.

The bill also provides a stiff penalty—10 years in prison and a \$10,000 fine—for a government employee who gives government secrets to a foreign agent or for a foreign agent who gets or attempts to get such information.

Housewives To Report Their Servants' Pay

WASHINGTON, Aug. 30 (AP)

—Mrs. Housewife is going to have to make reports and payments every three months, beginning next April 30, on social security taxes for house servants employed regularly.

Disclosure that a quarterly report system will be used rather than stamps or coupons was announced yesterday.

No Boycotts On Formosa, Malik Assures

Statement Comes As
U.N. Council Agrees
To Take Up Question

LAKE SUCCESS, N. Y., Aug. 30 (AP)—A Security Council decision to air the Formosa question brought assurance from Russia's Jakob A. Malik yesterday that he will not resume his boycott of council meetings after his August term as president ends tomorrow.

Mr. Malik said, in effect, that he will remain in the council to fight for the seating of a Chinese Communist representative who would accuse the United States of aggression against China in Formosa.

The council agreed yesterday to put the Chinese Communist charges on its order of business, after Korea. The United States voted for the Russian proposal after the council toned down Mr. Malik's language. The council voted, 7 to 2, to investigate the "complaint of armed invasion of Taiwan (Formosa)."

China and Cuba opposed the consideration of Formosa, Egypt abstained and Yugoslavia did not participate.

Britain's Sir Gladwyn Jebb, who will succeed Mr. Malik as council president Friday, said later he will call a meeting on his first day in the chair. He added he plans as many meetings next week as other council members will agree to.

Delegates expect Mr. Malik to uncork his strongest propaganda speech in days at tomorrow's meeting.

Judge Rules Against Paper

Supreme Court Test Seen In Lorain Journal Case

CLEVELAND, Aug. 30 (AP) — A court ruling that the Lorain Journal tried to put a radio station out of business appears reasonably certain of an eventual test in the U. S. Supreme Court. The opinion, handed down by Federal Judge Emerich B. Freed, held that the only daily paper in Lorain and four of its officers were guilty of seeking to "destroy" a competitor, station WEOL of Lorain and Elyria.

In so ruling, he supported the government's main charge—that the newspaper, by refusing to accept advertising from merchants wishing to advertise on the station, violated the antitrust law. He said the paper was trying to establish a business monopoly.

Isadore Horvitz, president of the Lorain Journal Co. and one of the officers found guilty, stated after the judge's ruling: "On the basis of Judge Freed's memorandum opinion, the antitrust lawyers of the Department

Toy Balloons Carry Truth Behind Curtain

Dozens Of Replies
Received By E.C.A.
In Propaganda Blitz

FRANKFURT, Aug. 30 (AP)

Little toy balloons riding the west wind are taking the gospel of the European recovery program into countries behind the iron curtain.

American officials of the Economic Co-operation Administration today cited these two evidences that the balloon propaganda barrage is getting results:

►Dozens of replies have been received from people in Communist-ruled countries.

►The Communists have shown their irritation by a counter-propaganda attack. They charge that the printed messages carried by the balloons are infected with poison bacteria—so people won't read them—and that the balloons are a trick by western war planners to test wind currents for poison attacks against eastern Europe.

Both these charges were printed recently by Communist newspapers in the Russian sector of Berlin.

But the replies coming into E.C.A. offices from people in Communist areas indicate that the messages are being read despite the Communist warnings.

The balloons, about one foot in diameter, are filled with hydrogen. If the wind is right, they will soar hundreds of miles.

About 100,000 balloons have been sent up from Denmark and western Germany.

Owner Fined As Parked Car Rams Building

River Road Collision
Damages 2 Autos In
Another City Mishap

An East Third St. man was jailed on an intoxication charge Tuesday night after his driverless auto drifted into the foundation of an apartment house at 319½ Church Alley, police reported.

Harry R. Parsons, 49, of 311 East Third St., was fined \$10 and costs in Municipal Court today on the charge police filed after his 1937 sedan hit the building owned by Gordon Lisle, 313 Broadway.

Parsons told police he left the car parked outside his garage in the alley opposite the apartment building. Mr. Lisle said the crash, timed at 9 last night, damaged the foundation and a door casing.

One other mishap was reported Tuesday. A crash at 8 10 a. m. on the River Road damaged a 1942 model convertible coupe driven by Everett O. Starkey, 24, of 968 St. George St., and a 1948 sedan driven by Ruth J. Johnson, 30, of Ogden, Utah, police said.

Dealers And Farmers To Consider Milk Hike

Milk dealers of the East Liverpool area will meet with farmer producers and heads of farm organizations this afternoon at the Golden Star Dairy offices to consider a price increase.

Several sales groups in the Pittsburgh-Wheeling district, of which this area is a part, have announced increases of 2 cents per quart, making regular 21 cents.

The Dairymen's Co-operative Sales Association announced a 2-cent hike at Wheeling Tuesday, raising milk to 21 cents, and the Pennsylvania Milk Commission indicated it will allow an increase in the Pittsburgh district to 20½ cents delivered and 19½ cents over the counter.

Taft Proposes Arming Italy, West Germans

Asks Clear Policy;
Acheson Questioned
Behind Closed Doors

WASHINGTON, Aug. 30 (AP)—Senator Taft (R) of Ohio demanded today that the Truman administration clear up what he termed a "complete lack of both plans and policy" to meet the threat of a third world war.

Mr. Taft suggested questioning the arming of western Germans and Italians to help defend western Europe from possible Russian attack.

Secretary of State Dean Acheson faces possible questioning along this line in a scheduled appearance at a closed meeting of the Senate appropriations committee.

Summoned to testify on a four-billion-dollar addition to foreign military aid funds, Mr. Acheson also faced questions by Senator Ferguson (R) of Michigan as to why military leaders aren't kept fully abreast of foreign policy developments.

Undaunted By Heckling

Taft Visits More Factories Despite Mahoning Heckling

WARREN, Aug. 30 (Special)—Undaunted by his heckling at a Youngstown district steel mill, Senator Robert A. Taft (R) of Ohio planned trips through four industrial plants here today in his reelection campaign.

A spokesman for the Republican leader said he probably will follow his "usual custom" at these plants and make no speeches.

Later in the day, his campaign schedule called for stops, and probably speeches, at Niles, Girard, Geneva, Conneaut and Ash-tabula.

At the Campbell plant of the Youngstown Sheet & Tube Co., 100 CIO. United Steelworkers left their jobs in protest yesterday two hours before Mr. Taft visited the plant.

They walked to the gates and let loose with boos and catcalls when he arrived.

Mr. Taft, who made no speech and said he had planned none,

Surviving are his widow, Mrs. Wilma Gilson Tipple at home, and a daughter, Miss Anna Tipple of Detroit.

Paper

(Continued from Page One)

was unprecedented, since it was the first time the government had attempted to prosecute a newspaper for competitive practices regarding a radio station.

"The record," said the judge, reveals a story of bold, relentless and predatory commercial behavior.

From the evidence, there can be no doubt that the policy was uncomplicated in purpose and as lacking in subtlety as the profit motive itself. The Journal sought to eliminate this threat to its pre-eminent position by destroying WEOL.

In its original suit, the government had asked Judge Freed for an injunction banning this practice. The judge said a future hearing will be held on that matter when he will decide the method of dealing with the offense.

Besides Mr. Horvitz, Judge Freed found the following other officers of the paper guilty of violating the Sherman law—Samuel A. Horvitz of Cleveland, publisher, vice-president, secretary and director of the Lorain Journal Co., D. P. Self of Lorain, business manager, and Frank Maloy of Lorain, editor.

This was a civil action and involves no threat of imprisonment or fines.

Carl Schaffrin, 217 Perry St., St. Charles, Mo., says there are some folks in this old world who feel good and there are other folks who feel bad. The folks who feel good he wants to congratulate for their fine health but for the folks who feel mighty bad he says he wants them to read what he has to say and then take a word of advice—take HADACOL. If you suffer from a deficiency of Vitamins B1, B2, Niacin and Iron.

Here is what Mr. Schaffrin has to say about HADACOL, since it overcame the effects of such deficiencies in his system. I have been a shoe cutter for over 32 years—I now work for the Boyd Welsh Shoe Co. in St. Louis. For quite a few years now I haven't had any appetite at all—seemed like I didn't have hardly enough energy to do my work. I was tired all the time—and really didn't enjoy doing anything. It affected my work too. Then I heard how other folks who took HADACOL had increased their appetite and seemed to have a limitless amount of energy. I tried HADACOL and it is amazing what a change it has made. Now I feel like eating everything on the table. My disposition is 100% better and my work—in fact every thing I do I now enjoy. For an entirely new outlook on life I recommend HADACOL.

Why HADACOL Gives Such Fine Results

HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of nervous pains, lack of energy, lack of appetite and a general run down weakened condition due to such deficiencies in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B1, B2, Iron and Niacin but also helpful amounts of important Calcium, Phosphorus and Manganese—elements so vital to help maintain good health and physical fitness.

Why These Vitamins and Minerals Come in Liquid Form

There is a very good reason why HADACOL comes in special liquid form. These precious Vitamins and Minerals are more easily and quickly absorbed into the blood stream this way—ready to go right to work—a big improvement is often noticed within a few days.

Now don't keep on wondering if HADACOL will help you. If you have such deficiencies—HADACOL WILL HELP YOU—just as it has thousands upon thousands of grateful souls who were so troubled. GIVE IT A FAIR TRIAL! Remember HADACOL is sold on a strict money-back guarantee. And so inexpensive. Try a size bottle only \$1.25. Large family or hospital size \$3.50.

Shh! Not So Loud!

HUMAN BEINGS who are unsure of themselves try to conceal it.

A favorite means is to try to keep their uncertainty from being discussed. That is what President Truman did to General Douglas MacArthur this week. It is what he did to Secretary of the Navy Matthews last week.

Both men made the same mistake, in the judgment of Mr. Truman and his advisers. They said something which had not been officially decided. Mr. Matthews said the United States shouldn't wait like a sitting bird to be shot by the hunters, or words to that effect.

General MacArthur said the United States should defend Formosa, that it should make a bastion of that strategic island.

The irony of it is that these are not startling statements at all. Both are commonplace. It has been assumed widely that the United States would keep Formosa out of unfriendly hands. It already is committed to defend it from sea-borne invasion.

Certainly it is no secret that many Americans have strong doubts about the wisdom of waiting for a sneak attack by the source of the world's current military mischief.

To be sure, General MacArthur and Secretary Matthews are highly placed in official affairs and both are accountable to the White House. But neither has said anything to warrant a shushing. The consternation they caused reflects official uncertainty.

The United States eventually will question a policy of waiting for the first crippling blow before admitting what everybody now knows—that the Soviet Union cannot be appeased. The United States will not let Formosa fall into unfriendly hands.

Yet because two Americans named Matthews and MacArthur have said these things there has been a flurry of whispering and shushing in Washington.

As someone said a few thousand years ago and everyone else has been repeating since: "These are strange times."

Pressman, Too

LEE PRESSMAN has testified under oath that he belonged to a Communist organization for a year (1934-1935) while he worked for the United States government.

That was true of a lot of New Dealers. But Mr. Pressman's confession, made before the House committee on un-American activities, is of special interest.

His membership in a Communist organization may have been limited to one year, as he says, but there was no limit on his sympathy. Yet, during the many years while he was showing it as a lawyer working for the New Deal and later for the C.I.O. it was virtually a mud-slinging offense to hint that he had his ideologies mixed.

That was true, also, of Henry A. Wallace, who almost became president of the United States. When critics suggested that Henry walked and quacked like a Commie duckling and, therefore, might be one, his pals said it was ridiculous to question his integrity. Yet, until recently, Mr. Wallace and Mr. Pressman were cheek by cheek in the Progressive party which they now have left because they say it is being guided to suit the Kremlin.

Mr. Pressman, moreover, was separated involuntarily from his responsibilities in the C.I.O., which had defended him for years, because of his connection with the Communist party.

It helps to have a suspected Commie tell all. But aside from double-dealers and related specimens, most Americans have continued to exercise the right to make up their own minds, pending the suspect's decision to come clean.

Long-Sought Chance

EDITORIALISTS were ready to check off 1950 as a lost year, as far as one of their prized prerogatives was concerned.

Up to the closing of August there had not been a single dog day. Life had kept its tempo. There had been no excuse to reminisce humbly about palm-leaf fans in the good old days. No one had tried an egg on the sidewalk. These are cherished subjects for editorialists to ponder.

Heat prostrations were negligible. No one even remembered to refresh that sound advice about lots of salt to replace the salt lost in perspiration. There was not even the customary silly season, though if there had been it would not have been noticed with things in Washington the way they are. And September was almost here. The tide was ebbing.

In September, editorialists write about football, school, the November elections, frost on the pumpkin, the migration of geese and the odor of burning leaves. Dog days are for August.

To make a long leash short, Monday was a dog day. A long-haired dog day. No special breed. It wasn't the heat that hurt. It was the humility—the humility of not having saved up anything special to say about the first day this summer when only people were astir. The dogs were under the shrubbery or down in the basement.

Behind The News

By George Sokolsky

What Of The Minds Of Our Children?

THE REVOLT of the professional writers in the Radio Writers Guild continues. James A. Stabile, executive secretary, on Aug. 17, resigned for these reasons:

"I, among others, pleaded with the council to take a forthright stand on the resolution, which called for the formation of a writers' group through which writers in all media could volunteer their services to our country during this crisis. Instead, the council adopted a resolution which in my considered judgment qualifies the positive and forthright action that the situation called for."

This was followed by the resignation of Daisy Amoury, a member of its council, because:

"Finding myself completely out of sympathy with certain actions and policies of the council, it has become necessary for me to send you my resignation as a member of the council, effective immediately."

The resolution over which this quarrel developed should have been pro forma in any American organization. It simply offered full support to our government in time of war, when other Americans are dying for their country.

Yet, this particular organization, the Radio Writers Guild, is so committed and organized and manned that it could not see such a simple matter through.

RADIO WRITERS are an important segment of the instrument for expression and education. Our children listen to the radio even as they do their homework. While the soap operas and westerns and 'murders' seem simple enough, I have at times wondered why so little that is heroic in American life is put before them. Are we so devoted to murder, to shooting and shrieking that little or nothing else interests our children? Is murder our principal sport?

I am told that the advertising agencies advise the sponsors that this sort of thing is the best fare for radio because it is safe. It is non-political, non-ideological, non-controversial. But are the minds of our children to be corrupted because advertising men find that safer than a controversy over some fine character in American history?

Some time ago, Elizabeth Winston Todd appeared before the House committee on un-American activities. She gave as her profession, associate director, working for the Columbia Broadcasting System, Inc. Then she was asked the usual question:

Mr. Russell: "Have you ever been a member of the Communist party?"

Mrs. Todd: "I refuse to answer that question on the ground that my answer might tend to incriminate me."

And this went on for some time. For instance, this occurred:

Mr. Russell: "Mrs. Todd, do you believe in the overthrow of the United States government by force and violence?"

Mrs. Todd: "I refuse to answer that question on the ground my answer would tend to incriminate me."

Mr. Russell: "Have you ever advocated that the United States government be overthrown by force and violence?"

Mrs. Todd: "I refuse to answer that question on the ground my answer would tend to incriminate me."

THERE WERE many questions which could have been answered by a yes or a no, but for which Mrs. Todd followed a uniform formula of reply pursued generally by Communists.

An assistant director in a radio studio is quite a responsible job. One would imagine that Mrs. Todd had had a long experience in radio. However, it appears that her experience had been elsewhere, including the Tennessee Valley Authority. And she was a member of the union there that switched from the A. F. L. to one of the left-wing C. I. O. unions. On this subject she was queried:

Mr. Appell: "Will you tell the committee how the employees of TVA happened to break away from the A. F. L. local and change to the C. I. O. union?"

Mrs. Todd: "They took a vote to change to United Federal Workers."

Mr. Appell: "Was the changing from A. F. L. to C. I. O. ever discussed in the Communist party? Was that Communist party strategy?"

Mrs. Todd: "I refuse to answer that question on the ground my answer would tend to incriminate me."

I cite the Todd testimony not to condemn the Columbia Broadcasting System, which is no better or worse than any other, but to point to carelessness in the employment of persons in positions where they can influence the minds of our children.

Many of them attack the very business processes that pay for the sponsorship of "entertainment" which can be and has been used as a vehicle to destroy them. (Copyright 1950, King Features)

According To Diagram

By Truman Twill

IN NO TIME at all, the crunch of clashing bodies and the squeals of excited spectators will mark the beginning of another football ordeal. The professionals already have torn their first ligaments of the new season.

All this was brought to mind by a couple of sheets of diagrams of football plays being studied by Twill Jr. in preparation for his minor role in forthcoming events on the gridiron. It was only with effort that a wiser, sadder footballer of yesterday choked back the impulse to spill the bitter truth about those diagrams.

Those little circles, exes, solid lines, broken lines, bars, arrows and display doodies do not begin to convey the real information about what is going to take place on the gridiron. Take, for example, that play where the left end cuts inside his opposing right end and blocks out the opposing team's left halfback.

The diagram assumes that the opposing team's left halfback is playing his position on crutches and is lame in the head, besides not being able to see clearly out of his right eye. It will not be thus. 'Twas never thus.

Instead, he always turns out to

be a mountain of man bulking upward of 200 pounds and composed almost entirely of steel and rawhide, with bricks in his pants pockets.

The monster is equipped with the grace of a gazelle, the pickup of a startled deer and the cunning of an elderly fox. He enjoys multiple vision, is cruel and ruthless as a ferret and is the possessor of uncanny diagnostic ability which enables him to know what is going to happen before it happens.

In brief, the bloke is not going to let himself be blocked out of anything which interests him, and he is extremely nosy.

And what his intended victim will say to the left end for trying to lay a malicious finger on him will not bear printing in a family newspaper.

Moreover, this will be duly noted by an eagle-eyed coach sitting on the bench, and this worthy will take a dim view of his protégé not following the directions as diagrammed.

These called for aforesaid left end to charge cleanly through aforesaid opening and crisply block the aforesaid halfback out of the picture. Some joke!

All For One, One For All

By Dewitt Mackenzie

THE KOREAN war—first conflict into which the United Nations has sent its legions in defense of justice—is developing an unforeseen aspect which may help solve the racial problems that have racked not only the world but individual nations.

I refer to the fact that already South Korea has a workable mingling of races under the U.N. flag. And that mixing race and color will proceed apace, as fresh contingents of troops arrive.

It will continue until South Korea has become a miniature "One World." True, it may become something of a Tower of Babel—but, to paraphrase an old saying, the language of comradery needs no words.

To be specific, Hal Boyle, A.P. columnist in South Korea, reports that more and more South Korean troops are being incorporated into American fighting units on a volunteer basis. These Koreans are taken over on the "buddy system," under which each one is teamed with a G.I.

The plan works fine.

American Negro units are fighting side by side with white troops—both doing a magnificent and co-ordinated job without thought of color. The same is true of the South Korean units.

All this fits in with the U. S. Army's progressive plan to eliminate the race issue. A well-developed example of this program is seen in the Fourth Infantry Division, at Fort Ord, California. The division has been pioneering to end all segregation—and reports that it works well.

Separation of colored and white units has been completely eliminated. All the men train together, sleep in the same barracks and eat in the same messes. Absolute impartiality is the by-word. One of the unforeseen developments has been to foster friendships between Negro and white soldiers.

The first horse to trot in public for a stake was "Boston Blue" in 1818. The horse ran against time for a stake of \$1,000, to settle a wager that no horse could trot a mile in three minutes.

Only One Will Survive

End Of A Chapter, Start Of A Book?

By Mark Sullivan

OUR PEOPLE watch Korea, concentrating their attention on the battles there.

Unconsciously or wishfully they assume that sooner or later we will triumph and that this will be the end of the chapter. It could be the end of the chapter, but only the beginning of the book.

This ought to be clear from the preparations we are making for a prolonged and major war and is crystal clear to those who think through. Thinking through is only approximately possible even to the best informed. For not all the data is available to anyone, much of it exists only in the minds of the Russian Communist heads, their intentions and plans.

One who has thought through with thoroughness and clarity is former governor Harold E. Stassen of Minnesota, now president of the University of Pennsylvania.

He concludes that Russian communism aims to overcome the United States by definite methods, carefully planned. One method, major in importance, is in Mr. Stassen's words: "The continuous embroiling of . . . the United States in minor wars at distant, difficult points to tire and weaken us and bleed us white."

We consider that possibly Russian communism may not make the new aggressions soon and that we may have time to increase our strength. But to assume that Russian communism will withhold further aggressions until we build up our strength is to assume that it will forego an immense advantage which it has planned for and in use of which it has made a beginning in Korea.

THE PRESENT example of this is Korea. The belief held in thoroughly informed quarters is that Russian communism plans aggressions similar to the Korean one in from five to eight other places distinctly separated from each other. The aggressions will be opposed by the United States, we have committed ourselves to it.

Consider now the military strength we have for this opposition—the military strength that is already in existence and available for service overseas.

A large part of this was already in use before Korea, as occupation forces in Japan and Germany. A percentage of our remaining available strength is

now being used in Korea. What this percentage is cannot be estimated with any accuracy. It is almost certainly a large percentage, for undoubtedly we are making use in Korea of everything we can spare in the way of men, material and any other factors that enter into military strength.

Imagine now that Russian communism makes another aggression while the Korean war is still on, in Formosa, for example. This would call for an additional percentage of our military strength, probably at least as much as in Korea.

Yet another aggression in any of the places where aggression is apprehended, would demand an additional percentage of our strength. Some of the anticipated aggressions, as in Europe, would demand large percentages.

Add up all these percentages, and the sum is more than we have. This is a grim conclusion. To escape it or minimize it we turn to possible counteracting factors.

We consider that possibly Russian communism may not make the new aggressions soon and that we may have time to increase our strength. But to assume that Russian communism will withhold further aggressions until we build up our strength is to assume that it will forego an immense advantage which it has planned for and in use of which it has made a beginning in Korea.

SIMILARLY VAIN for the same reason is any assumption that the aggressions will not go on simultaneously. To assume that is to assume that Russian communism will not use this method of overcoming us.

One counteracting factor which has substance is that we will have help from the other countries which are with us in resisting the Korean aggression, as called for by the United Nations.

But willing though the other nations have been to come forward, limitations upon what they can do is suggested by the amount they have been able to contribute thus far. Besides, some of these countries are directly in the line of expected aggressions. They must build up and maintain their home defenses.

The sum of all is that Russian communism is in the way of over-coming us by a method of warfare it devised, in which it has the initiative and in which we are on the defensive, obliged to adjust ourselves to the moves that Russian communism makes.

The one advantage we have, commonly believed to be decisive if we use it, is the atomic bomb. But here is part of the ingenuity of the method of warfare Russian communism is practicing.

It assumes that while we might use the atomic bomb against an attack made upon us by Russia directly, we will hesitate to use it against aggression that Russian communism inspires in small countries.

This condition has led to several suggestions. One by Mr. Stassen is especially concrete. He would have us, and the United Nations, serve formal notice on the Kremlin that if the Communist leaders do in fact start World War III by aggression through their satellites and puppets, we and our associates in the United Nations intend to finish it, in due time, against the Kremlin itself.

A Solemn Warning

By David Lawrence

WHAT SECRETARY of the Navy, Matthews said in his Boston speech about anticipating aggression by counter-attack can-

not be pooh-poohed as just irrelevant or indiscreet.

The issue is simply this: Would the American people be willing to see New York or Detroit or any other American city suddenly destroyed without warning by atom bombs by an aggressor state and then only begin to retaliate by dropping our own atom bombs over the aggressor country?

Mus, the age-old forms of waiting for a declaration of war by an enemy still be accepted and thus let the aggressor state always possess the horrifying advantage of being able to tell exactly when and where the first blow will be struck?

This is not a new controversy in history and the apprehension it has stirred probably has led to the outbreak of war in cases that might have yielded to peaceful negotiation, but it is a realistic phase of international relations which in an atomic era at least cannot be brushed aside as inapplicable to democracies.

It was and is the duty of the President and the secretary of state to say such things, if they are to be said at all, but Mr. Matthews involuntarily has given everybody, however, a solemn warning.

Malik Straightens Out The Kids

"TELL us the story of David and Goliath," the kiddies implored Jakob Malik, Soviet delegate to the Security Council.

"I will be glad to do so," Mr. Malik said. "It is a well-known fact that Goliath was a friend of free people everywhere. He was going peacefully about his business when he was attacked by a vassal of the ruling circles. There are those who have spread the absurd charge that Goliath was a giant. It is, however, a well-known fact that he was a midget. His nickname was Shorty, a fact only the shameless flunkies of the capitalist states will deny."

"Did he have any other nicknames?" chorused the kiddies.

"Yes. He was also called The Runt and Pewee," said Mr. Malik. "The giant in the dispute was a man named David. I am pleased to introduce photostatic copies of records showing he was nine feet tall."

"How tall?" asked a child.

"Ten feet," said Mr. Malik.

"What was that?" asked a translator.

"Eleven feet," said Mr. Malik. And he wore a helmet of brass and a coat of mail weighing 5,000 shekels of brass. The staff of his spear was like a weaver's beam."

"WE THOUGHT it was Goliath who wore all that armor," said the children.

"You have been victims of imperialistic propaganda. It was David. He was the aggressor. Goliath was a wholly inoffensive fellow with a sling and a few pebbles."

"That was David who had to depend on the sling and pebbles," insisted the kiddies. "I am sorry to see that you are tools of the obstructionist ruling circles, willingly swallowing the stories they so brutally circulate," said Mr. Malik. "The matter of David and Goliath is hereby closed."

"Can't we hear the story of Cinderella and the wicked sisters?" asked the kiddies.

"It is illegally on the agenda, but let me brief you quickly on this case, in the interest of truth. Cinderella wound up married to royalty. Her sisters never got anywhere. This is sufficient to dispose of the ridiculous efforts of gaudier to put them in an unfavorable light. They were determined to get along on their own. They sought no alliance with the fairy godmother. They firmly rejected the white mice and the pumpkin approach which is the familiar routine of the craven monopolists."

"CAN WE hear Red Riding Hood once again?" asked one of the children. "You always make that so different."

"I cannot rule on that unless the wolf is seated here," said Mr. Malik. "It is illegal to seat Miss Hood and her grandmother here unless the wolf is also present. It is a well-known fact that the wolf was fighting for its life. I have a copy of a photo showing grandma standing in a trench with Foster Dulles the day before the trouble broke out."

"We thought the wolf ate grandma," chorused the kiddies.

"You have been listening to Washington and its cowardly vassals in this council," said Mr. Malik. "The aggressiveness of grandmothers and the lunch-basket approach of their grandchildren constitute a well-known technique used by terrorists for provoking an attack. No wolf is safe from aggression these days."

"That ain't the way we heard it!" said the kiddies.

"You are vicious obstructionists seeking to spread the area of conflict. This session is adjourned," concluded Mr. Malik sharply.

Russian Espionage Ring Called Greatest In History

By MALCOLM JOHNSON, I.N.S. Staff Writer.
NEW YORK, Aug. 30—Soviet Russia's long-range program for world conquest has included the development of the greatest espionage system in history. That system is operating today in the United States, the number one target of the Communist offensive. Hundreds of American Communists have been trained for espionage and sabotage in schools in Red Russia.

They are now back in the United States on key assignments to further the Communist conspiracy.

The effectiveness of this training and the revolutionary tactics taught are now a matter of official record. They have been described in illuminating detail in

This is another in a series on The Enemy At Home.

sworn testimony by various ex-Communist witnesses before the House un-American activities committee and other government agencies.

Other evidence of the extent of the Soviet spy network is coming to light almost daily with the arrest by the F.B.I. of additional members of the espionage ring.

As to the number of spies in the vast network, ex-Communist Joseph Kornfeder of Detroit testified:

"Where there are five Communists, it is safe to assume that at least one, if not more, is a Soviet spy. The Comintern, therefore, enjoys surveillance over every phase and aspect of life in virtually every civilized and semi-civilized land on the globe."

Mr. Kornfeder was a witness before the House un-American activities committee. He was a charter member of the Communist party in the United States and served as trade union secretary on the party's national committee.

On the strength and organization of the Communist party, Mr. Kornfeder testified:

"Part of a course in practical training," Mr. Kornfeder testified, "included the handling of rifles, machine guns, hand grenades, small artillery and military transport."

"A course is also given in the handling of railway engines for the purpose of wrecking railway communications."

Upon completion of their training, Mr. Kornfeder said, students return to their home countries and are assigned to key jobs in the Communist party. Mr. Kornfeder himself was a graduate of the Lenin school.

before you buy a new truck

- MOST EFFICIENT COOLING SYSTEM with jet-directed water stream to valve areas.
- TURBO-HARDENED CRANKSHAFTS — finest known—used in every GMC.
- FULL-PRESSURE LUBRICATION with rib-drilled connecting rods which forces oil to full-floating piston pins.

MILES PER ENGINE—the number of trouble-free miles you can expect from a truck engine is mighty important to know—especially now.

GMC valve-in-head engines are designed and built for truck service—there's not one lightweight "converted" part in even the smallest GMC engine!

GMC engines are tough and powerful. They have high sustained pulling power at normal operating speeds—don't have to race themselves to death like lighter-duty, geared-up engines.

Check GMC's many other extra engine features and you'll see why you get most Miles Per Engine in a GMC—with less maintenance and repair. Come in today and let us give you the facts.

Book Cites Successful Advertising Campaigns
NEW YORK CITY, Aug. 30 (Special)—Fifty outstanding examples of how advertisers achieved major successes last year through effective use of the newspaper medium are documented in case-history fashion in the 12th annual edition of "The Blue Book of Newspaper Advertising," being released today by the Bureau of Advertising, American Newspaper Publishers Association.

Repeating its performance of the past several years, the grocery industry, represented by 13 campaigns, won top place in number of citations. Equaling the 13 it had in the 1949 Blue Book, it just managed to nose out the fast-moving automotive category, which placed 12 campaigns among the select 50, as against seven last year.

Harold S. Barnes, director of the bureau, in releasing the 114-page "honor roll," declared that "these Blue Book stories illustrate clearly how advertisers, through use of the newspaper medium, have capitalized on the fact that 'all business is local' and constitute new evidence that the market-by-market approach to national advertising gives the greatest return on the promotion dollar."

Almost Against Its Will

Korean Children 'Capture' U.S. Army

By HAL BOYLE
Associated Press Staff Writer

KOREA, Aug. 30—The American Army here is being captured—almost against its will—by a younger and more numerous force. It is slowly becoming the prisoner of the children of Korea in every country in which the GI has fought. He usually makes fast friends of the kids first. To them he is a military Croesus with endless stores of chewing gum, chocolate bars and candy. And few could withstand these magic bribes lavishly dealt out. They made the GI the hero of childhood from Calcutta, India to Casablanca in the last world war.

It wasn't altogether generosity on the part of the GI, although he was and is notoriously soft-hearted to children. But he learned quickly that through the kids he could win his way into favor with their families—generally with pretty daughters. And before long GI Joe was a one-man post exchange. He

gave his gum to the kids, his bag of laundry soap to their mamma, his cigarette ration to their papa. And all he had left to give the pretty daughter was a chocolate bar and conversation. However, this often seemed satisfactory. The happy system of introduction was so well understood in London that when a small boy called, "Got any gum, chum?" the soldier joked back, "Got a sister, mister?"

BUT THE formula hasn't gone so far in Korea. Few have found either temporary or permanent girl friends and most have taken no part in the life of the country. The frank truth is that most Yanks came here to do a disagreeable duty that has taken them longer than they hoped and they want to leave as soon as it is done. There are fewer comforts in Korea than in Japan and life generally is on a lower level. The GI has shown little interest in learning just what kind of people the Koreans are, although he has developed a great respect for their ability as soldiers.

But slowly the Korean children are winning him over. I suppose it is their plight that has touched him. At first they were as strange and furtive as their parents, peeking out fearfully

hair makes it look like a kingfisher.

The children bring gifts of apples in their hands. And it is a tough GI indeed who doesn't shower down with his candy and chewing gum then. Many a soldier saves these tidbits for the appearance of a particular child he has picked out as his personal mascot and given a nickname like "Smallbore" or "Little Jughead".

Perhaps as they get to know these children better the troops may learn the people here are not so different from him as he thinks. No land and no people can remain pretty in a civil war.

Mortgage Torn Up In Drive To Help 'Drill Press' Boy

RIDGEFIELD, Conn., Aug. 30 (AP)—An anonymous donor yesterday tore up a \$2,000 mortgage he held on the home of Joseph Korczynski Jr., the 4-year-old boy whose crazed father tried to kill him with a drill press.

The canceled mortgage amounted to another donation to the "Little Joey Fund" set up to help the boy, his mother and three small sisters. The mortgageholder asked that his name be withheld.

Joe, with two holes bored into his chest, was found pinned to a drill press here last Wednesday. State police said the boy had been attacked by his father, a waiter, since committed to a mental hospital.

The boy still is on the danger list, but his condition is improving.

Church Follows Flock

SOUTH PARIS, Me. (UP)—In 1910, most of the Finnish-American residents here lived in the King's Hill section. And that's where they built their church. During the next 30 years, most of the younger generation moved to another part of town. So now the church, a 35-ton wooden one, has been moved three miles to a more convenient location.

MISS MARY JANE KNAPP has chosen Saturday for her wedding to Francis Edward Jones Jr.

The bride-elect is the daughter of Dr. and Mrs. Alphonse Joseph Knapp of the Lincoln Highway, and Mr. Jones is the son of Mr. and Mrs. Francis E. Jones of Hartford, Conn.

Low Nuptial Mass will be celebrated for the ceremony at 10:30 o'clock in St. Aloysius Catholic Church with Rev. Fr. Homer Oliver officiating.

A SURPRISE BRIDAL SHOWER Monday night marked the approaching marriage of Miss Kathleen Laughlin, daughter of Mr. and Mrs. William A. Laughlin, of the Campground Road.

Her sister, Mrs. Robert Ward, was hostess for the pre-nuptial event at the Laughlin home. Miss Kathleen, a nurse at City Hospital, will become the bride of John Hughes at 9 o'clock, Sept. 9, at St. Aloysius Catholic Church.

Mr. Hughes is the son of Mr. and Mrs. John Hughes of Orchard Grove Ave.

Games were featured and refreshments were served 15 by the hostess, assisted by Mrs. Laughlin.

SINGLE-RING RITES were read Sunday afternoon at 3 o'clock for the marriage of Miss Marjorie Ellen Savors to Frederick Duane Baxter. Palms and ferns formed the altar setting in the Second Christian Church and Rev. Oakley W. Groat, pastor, performed the ceremony.

The bride is the daughter of Mrs. Inez D. Savors, 1061 Monaca St., and William E. Savors, 843 Cadmus St., and the bridegroom is the son of Mr. and Mrs. Fred Baxter of Oakmont.

A half-hour recital of traditional music was presented by Earl Hill and Miss Dorothy Carter was soloist.

Given in marriage by her brother, Richard E. Savors, the bride was dressed in white pique street-length dress fashioned with cap sleeves and trimmed in lace and gold. She wore a white picture hat and carried a bouquet centered with a white orchid.

Miss Ruth A. Savors, sister of the bride, was maid of honor in a pink linen dress and wore a natural colored straw hat and carried a bouquet of pink roses.

Richard C. Palmer, friend of the bridegroom, served as best man.

Mrs. Savors chose a black floral crepe dress with black and white accessories, and Mrs. Baxter was attired in Navy blue cotton crepe with Navy accessories. Both wore corsages of white carnations.

A reception for 40 followed at the home of the bride's mother and a miniature bridal couple topped the three-tiered cake.

Following a brief honeymoon at Niagara Falls and Canada, the couple will be at home to friends Friday at their home, 839 Cadmus St.

The bride was a member of the Senior Class of East Liverpool High School and the bridegroom is a 1949 graduate and is a kindergarten teacher at the Continental Kilns.

A 6:00 o'clock coverdish dinner was held Monday night by Pa. Mir Zuenna 43, Ladies of the Orient, in the Odd Fellows Temple.

Twenty-nine were present and Miss Nettie Moreland was a guest. Mrs. Gladys Bourne was chairman.

Golden Wedding Observed By Mr. And Mrs. Bert Wilson

MR. AND MRS. Bert Wilson of Hillcrest, Wellsville, quietly observed their golden wedding anniversary Tuesday night. A family dinner comprised the celebration for the couple. They were married Aug. 29, 1900.

The late Rev. David Hargest performed the ceremony in the parsonage of the Oak Ridge Presbyterian Church.

Helping in the celebration were their daughters and sons-in-law, Mr. and Mrs. Fred Smith of Hillcrest, and Mr. and Mrs. Paul Flanagan of Beaver. A son died in infancy.

Mrs. Wilson is the former Rosa McIntosh, daughter of the late Alexander and Martha Fife McIntosh of the Scotch Settlement, and Mr. Wilson is the son of the late William R. and Caroline Lewis Wilson of Madison township. They have lived in their present home for 36 years and he is employed by Yellow Creek township. He worked at Aten's Grocery in Wellsville for a number of years and at Faulk's Feed Store.

Both are members of the Yellow Creek Presbyterian Church and Sabbath School. They have good health.

Lutherans And Christians To Battle For Title

Ken Talbott Hurls No-Hitter

St. John's Lutheran and Second Christian will meet Thursday night at 6:30 at Upper Columbian Park in the first of the best of three series for the championship of the Church Softball League.

Kenny Talbott hurled a no hit, no run game against Pennsylvania Ave. Methodist as Christians entered the finals with a 6-0 victory.

Chuck Clendenning limited Boyce Methodist to three blows as the Lutherans reached the finals with a easy 14-1 triumph.

Lester Landfried had a home run and a single while Jim Bayer socked two singles for the Christians as they tallied once in the first, three in the fifth and two in the seventh.

Clendenning struck out 10 as his mates tagged Seever for 12 safeties, including three by Bob Greenwood and two each by Bob Cunningham, Ed Green and Larry Drane. One of Drane's was a circuit blast.

The Lutherans tallied at least two runs in each inning while Boyce reached Clendenning for its lone run in the first frame.

Final Games In Ohio Softball Meet Slated

TOLEDO, O., Aug. 30 (AP)—Final play will open tonight in the annual state softball tournament.

Toledo Subway Cafe tackles the Lima Ordinance Depot, with the winner engaging Hamilton Champion Paper and Fiber in the double elimination affair.

A victory by undefeated Hamilton will give it the championship, but a loss will result in another game tomorrow night.

In play yesterday, Hamilton trimmed Lima, 12-5, and Toledo Subway Cafes eliminated Lorain Fatty Recreation, 5-0, and Toledo North End Post, 2-1.

Ex-Pitt Grid Coach Added To USC's Staff

LOS ANGELES, Aug. 30 (INS)—Walter S. (Mike) Milligan, head coach at the University of Pittsburgh last year, was added today to the University of Southern California's coaching roster.

Milligan will serve as defense and line coach under Jeff Cavath.

Milligan resigned at the end of the 1949 season after three years as boss of Panther football when he was offered only a one-year contract. Len Casanova of Santa Clara replaced him.

County Net Play Opens In Salem On Saturday

SALEM, Aug. 30 (Special)—The Columbiana County Tennis tournament will open a three-day stand here Saturday with winner and runner-up trophies to be awarded in the singles and doubles events.

Don Hammell and Hammell and Gordon Scott of Salem are the defending champions in the singles and doubles, respectively.

Mr. Scott is receiving entries at 701 East State St. in Salem.

Pin League To Meet

The American Bowling League will hold a meeting Thursday at 8 p. m. at the Del Ray alleys.

Sam Mountford, secretary, requests all captains to be present. It will be the final meeting before the league opens the 1950-51 season.

TEXANS TAKE LITTLE LEAGUE TITLE. Evidently an old hand at giving out autographs, Larry Fogarty, of the Houston, Tex., squad, takes it all in his stride as he obliges some of his "fans" during the Little League World Series, played at Williamsport, Pa. Trying for a pickoff (bottom), Ronald Ulbrich, of Bridgeport, Conn., is seconds late as Raymond Garcia, of Houston, Tex., slides back to base. The Texans won the series.

Palestine Rips Lisbon To Stretch County Lead

East Palestine added a half game to its County League lead Tuesday by wallowing Lisbon, 10-4, on the pacesetter's diamond.

Salineville forfeited to Stratton in the other scheduled game.

Four games are billed for today.

Jack Rudloff limited Lisbon to seven hits yesterday and Charlie Bush blasted Lisbon pitching for a home run and a triple to lead Palestine's 15-hit attack.

Tom Wilson and Gail Beatrice each raked Chamberlain, the Lis-

Dayton Youth Snares Ohio Junior Golf Title

NEWARK, O., Aug. 30 (AP)—Denny Walters of Dayton is Ohio's new junior golf champion.

The 18-year-old Dayton city champion went around the Moundbuilders Country Club course here yesterday in 70-72-142, even par for the 36 holes.

Dave Slough, Findlay, and George Frankenfeld, Dayton, shot 70-73-143 to tie for second. Slough, however, won a sudden death playoff for second by scoring a birdie on the second extra hole.

Keiser Has 3-Stroke Lead In Ohio Golf Open

By FRITZ HOWELL
COLUMBUS, O., Aug. 30 (AP)—Forty-two professionals and 26 amateurs started in pursuit of Ohio Open Golf Champion Herman Keiser today, but no one expected them to catch him.

The Lima Shawnee professional and former Masters champion tacked a 69 yesterday to his opening 68 over Brookside Golf Club's 6,519-yard course. That feat put him seven under par for 36 holes and three ahead of his nearest foe as the 68 survivors banged into today's 36-hole stretch drive.

In the runner-up spot was Denny Shute, who has won enough tournaments to fill a book. The Akron Portage pro opened Monday with 69 and came back yesterday with 71 for his 140 total, four under the card. Denny won the Commodore Perry Hotel Trophy, emblematic of the Ohio Open championship, the first three times it was put up, in 1929, 1930, and 1931.

Since then he has won the PGA twice, the British Open, and has tied for the National Open, along with wins in lesser frays. If anyone is going to catch Keiser, Shute looks like the one to do it.

Keiser played the first two rounds to perfection. His opening card showed 12 pars, five birdies, and one over-par effort. He missed par once yesterday while getting four birdies and 13 pars. Both lapses came on the same hole, the 123-yard fifth, a simple pitch to a well-trapped green.

Scores of 153 were necessary to get into the final 36 holes, and 68 players made it as the starting field of about 150 was slashed.

Ohio State Star Tom Neiporte of Cincinnati led the amateur contingent with 143, the only simon-pure among the nine who bettered or matched par. Toledo's highly-rated Frank Stranahan, one of the country's top-flight amateurs, was well back with 149 after rounds of 75 and 74.

Five strokes back of Keiser, at 142, were Jack Grout, pro at the Scioto Club in Columbus; Don White, assistant at Toledo Heathcote, and Mike Krak, assistant at Cleveland Canterbury. But Baker of Cleveland was deadlocked at 143 with Niepore.

John Holtz of Fostoria and Don Stemple of Lancaster were even with par 144, but the remainder of the field had lost strokes along the way.

In a special division for professionals who have reached the half-century mark in age, Lloyd Gullickson of Toledo Inverness led the way with 149. Lou Chiappetta of Toledo was second with 152. Steve Zappe of Springfield third with 154, and Carmen Bill of Cleveland fourth with 159. Only Gullickson and Chiappetta were still in the scrap, the others soaring over the 153 qualifying mark.

Thirty-six hole scores yesterday in the Ohio Open Golf tournament included (A denotes amateur—par 72):

- A—Roger Pedgo, Lancaster, 78—withdraw.
- Dutch Read, Chillicothe, 81—withdraw.
- Robert Bisotti, Jackson, 79—withdraw.
- Joe Blanton, Newark, 82—withdraw.
- A—John Valuka, Steubenville, 77—withdraw.
- Charles Digby, Youngstown, 87-84-171.
- Mike Popp, Steubenville, 73-78-151.
- Jack Thompson, Youngstown, 77-72-149.
- A—Jack Thompson Jr., Youngstown, 76-78-152.

Ike's Pilot Snubs Federal Subpena

PHILADELPHIA, Aug. 30 (AP)—Attorneys for Boxing Manager Frank (Blinky) Palermo and two other men said today they won't answer federal subpoenas until members of a U. S. Senate crime investigating committee actually arrive in Philadelphia.

The subpoenas were served yesterday, shortly before the three men—Palermo, James Singleton and Joseph Coffey—were freed by Magistrate George Levin on numbers and gunplay charges growing out of a south Philadelphia shooting Aug. 12.

Also subpoenaed by the federal investigators were Pasquale Mangiello and Nicholas Margus, both of whom refused to testify on details of the shooting when they appeared before Magistrate Levin.

Their refusal to testify forced the state to drop charges against Singleton, Coffey and Palermo, manager of Lightweight Champion Ike Williams.

Police said Mangiello and Margus originally told them they were shot at by Palermo, Singleton and Coffey. Mangiello and Margus failed to appear for a hearing in the incident last Tuesday and they were then subpoenaed to appear yesterday.

Attorneys for Palermo, Singleton and Coffey said members of the Senate committee investigating crime in interstate commerce have not yet appeared in Philadelphia and that clients are not required to appear for questioning until they do.

The committee is headed by Senator Estes Kefauver (D) of Tennessee.

Fresco Thompson, director of the Brooklyn Dodgers' minor league organization, was a member of the Brooklyn infield in 1931 and 1932.

Tribe Hopes For Form Reversal In 2 Today

NEW YORK, Aug. 30 (AP)—Loser of three straight and now tied for third-place, Cleveland's Indians hoped for a reversal of form today in their two encounters with New York.

There was one thing at least they could be sure of. They won't go much further down the ladder, no matter what happens. They are tied with Boston now, two games out of first.

Washington's Senators are in fifth place, 2 1/2 games off the pace, and even the Indians' worst enemies wouldn't expect them to ever sink that low.

Mike Garcia (9-7) was picked to pitch the opener in today's fifth game, 2 1/2 games off the pace, and even the Indians' worst enemies wouldn't expect them to ever sink that low.

The Tribe lost to the Yankees, 6-5, in the first game yesterday, but a fortunate downpour of rain halted the second contest with Cleveland trailing, 4-0, in the third.

The Yankees wanted the game started again today at the point where it was halted, but American League President Will Harridge ordered it replayed.

Six hours and 15 minutes had elapsed when the two teams finally left the field after three separate rainstorms.

The Yankees won the game in the 10th with an unearned run. Joe Gordon, who had replaced

the injured Bob Avila, fumbled Phil Rizzuto's grounder. Yogi Berra singled and Joe DiMaggio was intentionally passed to fill the bases. Hank Bauer then came through with a one-bagger to drive in Rizzuto.

Avila's injury, a pulled leg muscle, was expected to keep him on the bench today along with Ray Boone, Rookie shortstop. Boone bruised his back in a collision at second base.

President Takes Time Out To See Nats Win

WASHINGTON, Aug. 30 (AP)—The President took time out from his official duties to attend the baseball game at Griffith Stadium last night—the first game he has seen since the opening of the American League's season on April 18.

Mrs. Truman accompanied him. When they arrived, unannounced, the 10,000 fans cheered. The Washington Senators beat the Detroit Tigers 5-4.

Whether Car Was In
Street, Or On Driver's
Land To Be Decided

Municipal Judge George L. Brokaw was to inspect a Norton St. neighborhood today before deciding a case in which a man is charged with threatening a police officer's son to avoid arrest.

After listening to nearly two hours' testimony Tuesday, the judge indicated the crux of the case is whether J. G. Bailey of Briar Alley had his car on Norton St. or his own private property Aug. 12 when Patrolman Robert Carroll approached and asked the defendant for his driver's license.

As the result of the argument and chase that followed, Mr. Bailey was charged with threatening the life of Officer Carroll's 2-year-old son, reckless driving and failure to obey an officer's order. Mr. Bailey's property adjoins Officer Carroll's home at 858 Norton St.

Testimony yesterday from both sides agreed that Mr. Bailey's auto was parked two to three feet in front of his garage on Norton St. The defendant claimed that his property extends about eight feet in front of the garage.

Officer Carroll testified that he asked for Mr. Bailey's license after the defendant backed his car from the side of the street, nearly hitting a cruiser the patrolman was driving. Mr. Bailey testified he was sitting in the car with the motor idling, but it was not moving when the cruiser passed.

The felony count was filed under a section that covers uttering threats for an end. In this case, the affidavit says, Mr. Bailey sought to avoid arrest and prosecution.

When Judge Brokaw examines the property, he probably will be accompanied by Defense Attorney Ben H. Berman, Mr. Bailey, Officer Carroll and Solicitor John B. McDonald, the prosecutor.

Testimony continued nearly to noon yesterday. One of the last witnesses was Police Captain Chester C. Smith, who testified Mr. Bailey "literally was frothing at the mouth" when Officer Carroll took him to headquarters after the arrest.

Counsel agreed that testimony taken in the first case will apply to the other two charges, so Judge Brokaw will be able to rule on all three at once.

Fighting General
Pins Bars Upon
His Fighting Son

IN KOREA, Aug. 30 (AP)—A fighting general yesterday pinned a first lieutenant's bars on his fighting son as the Korean front.

The father is Major General William B. Kean. The son is Lieutenant William M. Kean of Washington, D. C.

The younger Kean's regimental commander, Colonel Henry G. Fisher of Los Angeles, ordered the battle-front promotion for "outstanding leadership and courage under fire."

What did the lieutenant say to the general at this dramatic moment?

"When can we get more ammunition for my men, sir?" "It's on the way," the general said.

Construction Slated
On New Power Plant

The American Gas & Electric Co., of which the Ohio Power Co. is a part, will start construction immediately on a new 1,050,000 kilowatt super power plant on the Kanawha River near Charleston, W. Va.

The initial installation will consist of two 175,000-kilowatt high-pressure, high temperature generators. The first unit is scheduled for completion in 1952 and the second in 1953.

Capacity from the new Kanawha River Plant will be available to Ohio Power as well as the other operating companies of the system, which serves 90,000 square miles and 2,100 communities in six states.

Authorization for the new plant is part of a 251-million-dollar budget projected for 1951-1953 by American Gas.

Constables To Enforce
School Bus Passing Law

With the opening of school set for Tuesday in the county and Wednesday in East Liverpool, Constables John R. Jackson and John W. Jackson of St. Clair township are prepared for a drive on motorists who ignore the school bus passing law.

They said 60 per cent of the violators they arrested last year were local people. Most of the infractions occur along Route 30.

The law requires that cars must be brought to a complete stop when a bus is halted to pick up or discharge children. This applies for both approaching and following traffic, they said.

The constables appealed to residents along school bus routes in their district to turn in the license number of any offending vehicle.

Boat Masters, Pilots
Accept New Contract

HUNTINGTON, W. Va., Aug. 30 (AP)—A strike of Kanawha and Ohio River towboat masters and pilots has been settled, but the river boats will remain idle until engineers also sign a new contract.

President Morris Creditor of the Ohio River Co. and Captain Russell Stone of the independent Licensed River Officers Association at Point Pleasant, announced the settlement late yesterday.

Under the new agreement, 18 master pilots, roof captains and pilots will get higher wages and more time off.

However, the contract does not go into effect until negotiations now under way with river boat engineers are settled.

The three-year contract provides wage increases from \$525 to \$600 a month for master pilots, \$525 to \$540 for roof captains and a monthly wage of \$510 for pilots.

The agreement also provides one half day off for each day worked.

6,600 Recalled After
Temporary Layoffs

DETROIT, Aug. 30 (AP)—A series of quickie strikes at Ford focused attention today on that firm's policy in the auto industry's revamped wage pattern.

Brief walkouts yesterday at one time were reported to have upset operations at Ford's big Rouge plant.

The C.I.O. United Auto Workers said the incidents reflected unrest over pay raises granted to Ford competitors which have upped their hourly wage by as much as 10 cents or more.

Ford made no comment. Under its contract with the union, Ford is not required to make any wage change before Jan. 1.

tool and die workers yesterday and last night, Ford laid off 6,600 employees temporarily. All were called back today, however. Ford said the walkouts completed the layoffs.

Students Using Bus
Passes Must Register

High School students entitled to use Valley Motor Transit Co. buses must register not later than Thursday if they wish passes for the first full week of school, beginning Sept. 11, Superintendent W. G. Fordyce reminded today.

Many students failed to register for transportation last week according to figures at the school office. Students will be required to furnish their own transportation on Sept. 6, 7 and 8 but passes for thereafter will be provided those who register. The superintendent's office will be open tomorrow from 9 a. m. to 5 p. m. except from 12 to 1 p. m.

Ohio Fair Draws Thousands; Agriculture Leader Honored

COLUMBUS, Aug. 30 (AP) — Ohio's state fair saluted the director of agriculture today. But the honored guest did not tour the grounds. He knows every square foot of it. For Howard S. Foust, director of agriculture, also is state fair director. Mr. Foust is scheduled to present the director of agriculture trophy this afternoon in the harness races. Record entries in livestock in both junior and senior fairs and elaborate displays of a century of progress in Ohio's agricultural life continue to draw thousands of visitors. The fairgrounds' parking facilities are severely strained. Yesterday, only 105 minutes after the gates opened, the 3,000 parking spaces inside the grounds were filled. The state is seeking to buy an 80-acre plot now under lease as a parking lot accommodating 11,000 cars. Harley Swaim, concessions space chief, said the lot, if properly developed, can hold 20,000 cars. If this space is obtained, the state plans to switch 30 acres in the fairgrounds now used for parking space for machinery and automotive exhibits. Tomorrow will be Governor's Day, with a luncheon scheduled for noon. A pretty Canal Winchester schoolgirl was chosen queen of the Ohio Future Farmers of America during yesterday's activities. Dolores Coleman, 16, won over 32 contestants, and not for her beauty, either. She milks by hand eight Jersey cows daily and operates a tractor on her family's 40-acre farm. Ruby Johns of Van Wert was runner-up. Alice Leighty, 20, of Upper Sandusky exhibited the grand champion steer in the all-breed show of the junior fair. Margaretta Grange of Erie county placed first in the subordinate exhibits sponsored by the Ohio State Grange.

Mrs. Bolton Hits At 'Appeasement'

CLEVELAND, Aug. 30 (AP) — The National Federation of Women's Republican Clubs was told today that only the election of a G.O.P.-controlled House and Senate can keep the government from becoming a "bureaucratic dictatorship". Congresswoman Frances P. Bolton of Cleveland was the keynote speaker at the sixth biennial convention opened. She said infiltration of Communist doctrines into the United States has brought a mounting tide of anger against the administration, "which has turned its eyes away from the danger". The U. S. foreign policy in Europe "is a long history of poor judgment, blundering and appeasement", the speaker said. "The results are there for all to see—hundreds and thousands of freedom-loving people forced under the iron curtain while we stood by and let it happen." She told the convention "our appeasement policy" was one of the main contributing factors for the spread of Communist-controlled governments.

Eagles Case Prosecutor Now Indicted Himself

COLUMBUS, Aug. 30 (AP) — The Putnam county prosecutor—who sought and got indictments against four officers of the Eagles—was indicted himself yesterday. The Franklin county grand jury also indicted two Ottawa residents on perjury charges. The charges are: Prosecutor J. Harry Leopold of Ottawa, aiding and abetting a perjury. J. Poe Roberts and Richard M. Recker, both of Ottawa, perjury in an application asking transfer of a private club liquor permit from Blanchard Aerie 2234, Fraternal Order of Eagles, to the Freedom Order of Eagles No. 1. All three are charged with obtaining the permit transfer under false pretenses. The actions climaxed a grand jury investigation of the liquor permit transfer.

Local Printer Gets Contract For Ballots

Board Gives \$1,595 Order For Tickets In Election On Nov. 7

Wilson-Simms Printers of Market St., was awarded a \$1,595 contract Tuesday night by the County Election Board to furnish ballots for the Nov. 7 general election.

The East Liverpool firm's net bid was \$81 under the only other offer of \$1,656 from John Taylor, Lisbon printer.

The Election Board expects to use 65,550 office-type ballots, the same number of judicial ballots and more than 88,175 on special questions and issues like tax levies and bond issues.

The final number for special issues will not be determined until after the filing deadline. In addition, the Election Board expects to use so-called combination ballots listing two or more in some communities.

The board was required to analyze both offers before letting the contract, as its call for bids asked printers to fix an allowance where questions and issues appear on combination ballots.

Wilson-Simms bid \$10 a thousand on office-type ballots, \$9 on judicial and \$8 on questions and issues. However, it agreed that combination questions and issues ballots would be furnished at \$7.77 a thousand, whether they carried two, three or more propositions.

The Taylor concern's gross bid called for \$12 a thousand for office-type ballots, \$10 for judicial and \$7 for questions and issues.

Fire Truck, Cruiser Added

Salineville Uses New 'Rolling Stock'

SALINEVILLE residents are proud of their shiny new fire truck delivered Friday and the village's first police cruiser.

The \$7,900 fire truck was purchased from the American Fire Apparatus Co., Battle Creek, and the two-door cruiser from the Hart Motor Co. of Salineville at a cost of \$1,464.

Fire Chief Tony Brandonio said the new truck is a two-ton chassis equipped with a two-stage pump, two booster reels with high pressure fog and a 300-gallon booster tank.

The portable light plant, an extra feature, was purchased by the volunteer firemen from proceeds of their annual celebration, the chief said.

A 1931-American La France pumper still is serviceable but will be used only for emergencies, according to the chief. He said it is difficult to get replacement parts for the 18-year-old truck.

The cruiser is used by Marshal James Miller who previously covered the town on foot.

However, it stipulated a "10 percent proportionate allowance" on all three types that made the net offer \$10.80 for the office-type, \$9 for judicial and \$6.30 for questions and issues.

The Election Board indicated it expects to use combined questions and issues ballots in six subdivisions that already have asked a vote on more than one proposition—East Liverpool and Wellsville cities and Wellsville, East Palestine, Lisbon and Yellow Creek School Districts.

the Taft-Hartley labor law, later was picketed when he spoke at a Y.M.C.A. in Youngstown.

There was no disorder last night when the senator made another speech at the Veterans of Foreign Wars building in Youngstown.

C.I.O.-P.A.C. pickets, however, distributed anti-Taft leaflets to the crowd.

Speaking off the cuff while the sweltering crowd fanned itself with an anti-Taft "comic book" handed out at the door, the senator charged that administration forces blocked amendments to the Taft-Hartley law to create an issue for the fall campaign.

Answering a charge he is against public housing, the senator said he worked so hard for the issue that "real estate men called me a Socialist and a Communist." Senator Taft said he also fought for federal aid to education to give children in backward states an equal opportunity, despite local financial limitations.

He said he is against compulsory medical care administered by the federal government because "it means a six-billion-dollar pay roll tax to provide 'free' health service for millions of people able to take care of themselves." He called it "a threat to the greatest medical profession in the history of the world."

The war-conscious crowd forgot the Taft-Hartley law and concentrated on Korea and foreign policy in the question and answer period that followed.

One of the first questioners wanted to know if Mr. Taft thought President Truman was

40 From County Hear Taft's Youngstown Talk

East Liverpool and other communities in Columbiana county sent a delegation of about 40 to hear Senator Robert Taft's address in Youngstown Tuesday night.

The group included Willis O. Hall, chairman of the Ohio Labor League for Taft, and W. A. Southan, chairman of the Columbiana County Taft committee.

Judge To Rule On Eviction In Tangled Case

Assault Conviction, Alleged Boarder And Lack Of Repair Cited

Municipal Judge George L. Brokaw has two knotty problems to untangle today before he rules on an eviction action.

Testimony Tuesday afternoon in the action filed by Mrs. Mildred Champion of Sherwood Ave., the landlord, against Ted Pryor, 931 McDonald St., posed these questions:

When does a visitor cease to be a visitor and become a boarder?

Does mailing the rent to the landlord via a money order constitute a legal payment and, if so, does the payment mean the landlord is condoning a nuisance?

In her eviction action, Mrs. Champion charged the Pryors with creating a nuisance by assault and battery on her husband, Beryl Champion, by failure to make stipulated repairs to the property and by taking in a boarder not covered in the rent agreement.

Judge Brokaw took the case under advisement after Attorney George A. Aronson, defense counsel, asked permission to cite law to the court on the question of rent payments.

Mrs. Champion charged that the Pryors took in a boarder, William Coleman, after he had been evicted from an upstairs apartment three months ago. The Pryors testified he is a visitor, not a boarder, because he pays for his food but does not pay rent.

Testimony showed the Pryors mailed three \$12.50 rent payments to Mrs. Champion, who took them unopened to her attorney, Louis Tobin. Still sealed, the letters were opened after a court argument yesterday.

Mrs. Champion's husband, Beryl Champion, testified Mr. Pryor struck him and broke a rib July 29 when he served the family with a three-day notice to move. Testimony showed Mr. Pryor was convicted of assault and battery and fined \$25 and costs.

Today's Birthday

FREDERICK HUDSON ECKER was born Aug. 30, 1867 at Philadelphia, N. Y. Chairman of the board of Metropolitan Life Insurance Co., and responsible for the company's vast housing investments, he started with the firm in 1883 at \$4 a week and worked his way up.

Curtiss-Wright Plant Will Close In March

COLUMBUS, Aug. 30 (AP)—The Curtiss-Wright Corp., which turned out 6,700 planes in World War II, plans to close its doors by next March because of lack of government orders.

But the plant will be maintained in case of complete mobilization, officials said.

H. F. Brown, plant general manager, told newsmen yesterday that the government does not need projects now being handled at the plant. These include development of an anti-submarine warfare plane for the Navy and a program of modernization of the B-29 for the Air Force.

The plant, established just before the outbreak of World War II, once employed 25,000. The present pay roll is about 1,800.

Hammondsville Plans Beauty, Baby Contests

HAMMONDSVILLE, Aug. 30 (Special)—This town's centennial celebration Labor Day will include beauty and baby contests and pageants.

Mrs. Mary Householder is chairman of the baby contest to be held at the school following the parade at 10:30 a. m.

All Hammondsville district babies up to 2 are eligible. Winners will be selected by out-of-town judges.

The beauty contest arranged by Robert Davidson will be held at the school after free movies at 7:30 p. m. by F. J. Dando.

Numerous prizes have been donated by district merchants.

Wounded Cumberland Man Returned To Texas

NEW CUMBERLAND, Aug. 30 (Special)—Private David W. Cline, 19, of R. D. 1, the district's first casualty of the Korean War, has been returned to this country for treatment in an Army hospital at San Antonio, Tex., according to word received by his parents, Mr. and Mrs. Ray Cline.

A member of the 24th Division, he was wounded early in July and evacuated to a hospital in Japan.

Injuries to his face and right eye may keep him hospitalized for three or four months, his parents said.

Elyria Horse Captures Honors At Fair Show

COLUMBUS, Aug. 30 (AP)—Magic Rhythm, owned by Miss Nan Olsen of Elyria, took home the \$500 stake trophy for five-gaited horses last night in the Belgian American horse show at Ohio's centennial state fair.

Other crowd pleasers for some 5,000 spectators included a pony class, with each cart carrying two children in colorful costumes. The winners were Jane George and David Suleth of Cincinnati. Young Suleth drove Hoosier Firelight.

The Duke of Dublin, a tiny chestnut, won the Futurity class ribbon for Mr. and Mrs. Hubert Miller of Eaton.

Jan Farceur, 10-year-old stallion owned by Ed Forath of Water Cross Stock Farms, Northville, Mich., won the King Albert cup for Belgian horses yesterday. Victory, owned by W. G. Harkness and son of near Sandusky, was named grand champion Belgian mare.

Curbs Meters Shifted In One-Way Sections

The Street Department is completing re-arrangement of parking meters on the one-way sections of Fifth and Sixth Sts. so they will be at the front bumper of parked cars.

Since the one-way rule was applied to the two streets between Broadway and Jefferson St. about six weeks ago, parking on one side of each stretch have been using the meters at the rear of their autos, and they were installed for two-way traffic and parking.

The re-alignment meant moving one meter in each half block. New parking stalls will be painted on the two sections completing the change.

Plenty Of Turkeys Seen For Ohioans' Holidays

COLUMBUS, Aug. 30 (UPI)—There should be plenty of turkeys to fill Ohioans' plates on Thanksgiving and Christmas, the Federal State Crop Reporting Service says.

The 1950 gobbler crop in Ohio totals some 1,305,000, a 10 per cent increase over the 1949 turkey crop of 1,186,000, the service reports. This year's figure also is considerably over the record crop of 1,213,000 turkeys in 1947, and the 10-year average (1937-46) of 884,000.

What's more the crop service reports, preliminary estimates indicate a record nation-wide turkey crop of 44,550,000—a 6 per cent jump over the 1949 crop and 1 per cent higher than the previous peak production year, 1945.

Marion Will Open New Airport Friday

MARION, O., Aug. 30 (AP)—Marion will open its new \$750,000 airport for business Friday.

Trans-World Airlines will start east-west service that day, although there's still work to be done on the field. The opening will link Marion by air with Pittsburgh, New York, Chicago and Kansas City.

The airport is about three and a half miles east of here at the site of the former Scioto ordnance plant. Walter Mathiot, a former National Guard captain, is the manager.

Ohio Car Inspector Quits In \$998 Theft

COLUMBUS, Aug. 30 (AP)—The state registrar of motor vehicles said yesterday Inspector John E. Gilbert has resigned after signing a statement that he took \$998.35 from state license fees.

Registrar R. E. Foley said Mr. Gilbert admitted taking the money from the sale of licenses for 12 truck and two passenger cars. He said Mr. Gilbert has restored the money.

To clean pans that have been scorched by food adhering to them, sprinkle some baking soda into them and allow to stand for a while. They can then be easily and quickly cleaned.

SUMMER MOTOR TRIPS CAN BE EITHER
"Make mine a pleasure trip," you say—but it's largely up to you. We can help, though—if you bring us your car along with a tuning-up and adjustment before you start touring.
Remember it's a lot better to have your car put in good shape here at home than to be stopping at garages all along your vacation route to have the work done piece-meal. Long-distance, high-speed driving is a way of making little faults into major troubles. Your best assurance of an enjoyable trip is to have us correct those little faults in advance.

Sunday Court Sessions
Reduce Lost Week-Ends
CHICAGO (UP)—In an effort to shorten the lost week ends of the hundreds of persons jailed for Saturday night misbehavior, Chicago has started Sunday municipal court sessions.
Without the Sunday sessions, most of those arrested would have to remain in jail until Monday.
In the first Sunday's operation, 237 of 285 prisoners were discharged, 23 went to further confinement and charges against 35 were continued or transferred.

WAR'S OVER FOR THESE REDS. A bedraggled contingent of Red captives marches into prisoner camp No. 1 at Pusan under watchful eyes of military police. Then come fingerprinting, physical examination, POW uniforms, etc. More than 1,000 prisoners are housed in this camp near the port city. They follow a rigid schedule, rising at 6 a. m. Most of their work consists of enlarging the camp for new arrivals.

No Action Due Now

Green, Lewis Have Words Over 'No-Strike' Pledge

WASHINGTON, Aug. 30 (AP)—Three top labor leaders, in their different ways, made it clear today they won't volunteer any immediate no-strike pledge.
A. F. L. President William Green came closest to giving such a promise. He said the A. F. L. is ready to call off strikes—as it did in World War II—if President Truman asks it. But he added, the President hasn't yet made such a request.
C.I.O. President Philip Murray said talk of such a pledge is "premature". He has crucial negotiations coming up in November or earlier with the entire steel industry and will be free to strike under his United Steelworkers contract after Dec. 31. Yesterday he said it is "reasonable to assume" he will be asking for wage increases for his nearly one million steel industry members.
Like Mr. Green, the C. I. O. chieftain agreed to forego war-time strikes when asked to do so by President Roosevelt after the Pearl Harbor attack.
The exception then was John L. Lewis, leader of the United Mine Workers, who refused to be bound by the White House pledge or the rulings of the War Labor Board created to process disputes. The miners struck several times in 1943 for underground travel pay.
Mr. Lewis has hinted he may be an exception again. Yesterday he told Mr. Green in a "memo" that if the A.F.L. leader was "plodding about the country seeking someone" to give the pledge to, he wasn't speaking for Mr. Lewis' coal miners.
In a caustically-worded message, the U. M. W. leader poked under Mr. Green's skin by saying: "We do our own cooking. We do our own committing. We do our own no-striking."
The seldom-riiled A.F.L. spokesman quickly fired back unusually sharp words at his one-time close

associate, now the lone wolf of the labor movement.
Mr. Green said he is proud of the A. F. L.'s no-strike action in World War II, "because by doing so we contributed in a large way to the winning of that war". The A. F. L. has 105 nation-wide unions, with eight million paid up members.
"Mr. Green wrote Mr. Lewis: 'You are at liberty to follow your own 'strike' or 'no-strike' policy. It would seem that you would be out of place if you were affiliated with any organized labor movement which might be committed to a no-strike policy. In order to defend our country and save it from Communist aggression.'"

School Aid Stressed
DAYTON, Aug. 30 — State Treasurer Don H. Ebright, the Republican candidate for governor said yesterday he considers a public school program "the most important question facing our state government today". He spoke at the convention of the Junior Order, United American Mechanics.

Charles II of England was a quarter Scottish, a quarter Danish, a quarter French and a quarter Italian.
